ayalak4207@gmail.com   058-3204207

Full Stack Developer with one year of experience. Well-versed in the following programming languages and technologies: **JavaScript, HTML5, CSS, React, TypeScript, MobX, Redux, Bootstrap, Material UI, Jest, Node.js, Django, java, c#, MongoDB, Mongoose, Express, Nest.js, SQL, AWS,** and more.

I am passionate about web development. I'm fast learner with good understanding of the big picture and keen eye for detail. **I am a very motivated and hard worker**.

Experience:

React & Node.js Developer at kamaTech & waze bootkamp - 2022
I developed a generic system for creating point of sale management systems. The user can enter his current location and search for the product he wants, the system will find the 3 closest locations for him.
Sever side: Node.js, Nest.js, TS.
Client side: React, RestAPI, TS, Material-Ui, CSS, HTML5, mobX.
DB: MongoDB.
Links: server, client.

Development workshop
Teamwork experience on a plasma screens management project.
Server side: asp.net core web API.
Client side: Angular10, Responsive UI.
 DB: SQL Server.

Private teaching for student on subject: Java, java script, node.js.

Education:

 Bootcamp in react and node.js.
